Sans Serif Font Comparison

This reference sheet shows examples of sans-serif fonts that have usable small-caps functionality in this LaTeX setup.

Each font title is rendered in its own font, and each sample compares normal text, regular caps, and small caps.

How To Use In Resume Files

Your resume class defaults to Cabin. To override font in an individual resume, add one of the following lines in that resume preamble (after `\documentclass`, before `\begin{document}`):

```
\resumesetfont[sfdefault]{cabin}
```

```
\resumesetfont[sfdefault]{roboto}
```

```
\resumesetfont[sfdefault]{sourcesanspro}
```

Source Sans Pro

Bold caps: **KIRKWOOD P. DONAVIN – BIKE MECHANIC**

Small caps: KIRKWOOD P. DONAVIN – BIKE MECHANIC

Section-style: **EXPERIENCE**

Body text: Experienced mechanic focused on clear communication, repair quality, and efficient turnaround.

Roboto

Bold caps: **KIRKWOOD P. DONAVIN – BIKE MECHANIC**

Small caps: KIRKWOOD P. DONAVIN – BIKE MECHANIC

Section-style: **EXPERIENCE**

Body text: Experienced mechanic focused on clear communication, repair quality, and efficient turnaround.

Cabin

Bold caps: **KIRKWOOD P. DONAVIN – BIKE MECHANIC**

Small caps: KIRKWOOD P. DONAVIN – BIKE MECHANIC

Section-style: **EXPERIENCE**

Body text: Experienced mechanic focused on clear communication, repair quality, and efficient turnaround.
